BLAIRMORE TAX RATE FOR 1922 IS FORTY-ONE MILLS

At the regular monthly meeting of the board of School Trustees on Friday night last, the table of estimates for the year was submitted and the rate of taxation was struck at fifteen mills, being practically the lowest in the history of the school district.

The district's assessment is this year \$1,772,829, by far the largest and yet the most equitable assessment the district has had.

The table of estimates provides for considerable repairs, such as fencing the grounds, new floors and stair steps, high school apparatus, etc. No radical changes are expected in connection with teachers' and officials' salaries and it is proposed to carry on with practically the present teaching personnel till the end of the year.

Two or three teachers have contemplated resigning at the end of the present term. These will be replaced in September.

The two years for which the West Canadian Colliers undertook to supply a ward school for West Blairmore had now expired, and in future the Board will be obliged to pay rental for the ward school at \$80 per month.

Last year's school tax levy was eighteen mills, while that of the town was thirty-five, making in all 53 mills. The rate this year, school and municipality, totals 41 mills, or almost twenty-five per cent less than the previous year.

The school population is now 402.

Mr. and Mrs. D. May left here Monday morning to spend a bit of holiday and rest at the Pacific coast.

Mrs. Shaw, wife of Major P. C. Shaw, formerly connected with the 182nd Battalion, has flown from Calgary to spend a few days with friends in Blairmore.

"FIVE HUNDRED DOLLARS RIGHT OFF THE BAT"

At the meeting of the congregation of the Union church on Sunday night last, Chairman Upton outlined the programme for the future in brief and intimated that some sixteen hundred dollars would be required if Mr. Young was to remain and continue his work. Calling for support, the sum of five hundred dollars was immediately subscribed, and it looks as though no difficulty will be experienced in raising the amount required.

Part of the expenditure will be in connection with building up, addition to the parsonage and raising the present building so as to permit of a full basement.

BIG BUILDING PROGRAM OUTLINED FOR BLAIRMORE

The building programme at present outlined for Blairmore involves expenditures of approximately \$100,000, and includes the erection by the Coal Company of several very large buildings and a number of cottages in West Blairmore, and a number of store buildings and houses in East Blairmore.

The most imposing structure will be a building of 70 by 110 feet dimensions to fill the gap between the present general offices of the Coal Company and the store at present occupied by the Upton Tailors. Part of this structure will be single storey and part two storey, the upper floor containing several commodious and modern residential apartments. The ground floor of the block will be laid out for a departmental store.

A number of beautiful cottages will be erected, the contract for which has already been secured by our local contractor, Mr. E. J. Pozzi.

In addition to the above, several large store buildings are contemplated for Victoria Street east, the contracts for some of them already being in the hands of the contractors.

Cottages are going up at the present time in all directions, and a passerby must judge that no place in the province today gives such promise as Blairmore.

All buildings proposed and at present under construction are of cement, tile or brick.

ATTENDANCE AT THE ALBERTA UNIVERSITY

The total registration at Alberta University for the period 1921-22 was 1285. The registration by faculties was as follows: arts and science 666, applied sciences 81, medicine 222, law 143, agriculture 102, pharmacy 44, correspondence 123, public health nurses 10, B.D. students 9—total 1400. Less duplication registrations in double courses 115.

The registration by religious affiliations showed that almost every known sect is represented, the largest being: Presbyterian 396, Methodist 309, Church of England 192, Roman Catholic 98, Baptists 80.

Registration by national origin: British 974, foreign countries 238.

SUCCESSFUL MUSIC PUPILS

At the music examinations of the Associated Board of the Royal Academy and Royal College of Music, London, England, held at Bellevue on May the 12th, Mr. Croager, A.R.A.M., of London, was the examiner. The following pupils of Miss M. Williams, L.A.B., were successful:

Primary Division—Norman Miller, Margaret Cole, Mabel Thompson, Elizabeth Atkinson, Olive Howcroft, Gladys Howcroft, Hubert Dambois. Elementary Division—Albert Christie, Alice Hopquist, Evelyn Olivier, Alice Smith, Margaret Eccleston, Julia Dutil, Ivy Johnson, Mabel McDonald, Irene Chappell, Ina Woods. Lower Division—Helen Carriere. Higher Division—Mary Sartorius.

Sowing Seeds of Success

Habits formed in childhood days guide our development in later years. A thrifty boy usually becomes a successful man.

Your interest in your child's future is shown when you open a Savings Account for him while he is in the habit forming age. One dollar will open a Union Bank savings account.

Elba, Manitoba

June 21st, 19—

At the present moment I am sitting in a green and red plush-covered easy chair in the room at the "The PALACE BOARDING-HOUSE" Refreshments for Man and Beast at Reasonable Rates.
Hot Meals and Beds
European Plan—You Pay for What You Eat—
Proprietor, MRS. REDBROCK MILLS.
I quote the sign-board.

At the opposite side of the room Mary is seated before one of those modern instruments of torture known as an American organ. From it she is extracting no word but that one suggestive of dentistry will describe the operation—accompaniment to the most grating of ragtime melodies which she is singing for the edification of Mrs. Mills' twin sons. The boys, who rejoice in the names of Reginald and Percival, are sitting for the edification of Mrs. Mills' twin sons. The boys, who rejoice in the names of Reginald and Percival, are sitting for the edification of Mrs. Mills' twin sons. The boys, who rejoice in the names of Reginald and Percival, are sitting for the edification of Mrs. Mills' twin sons.

"So long, Mary. Mary, we will miss you so! So long, Mary. How we hate to see you go! We'll be longing for you, Mary. While you roam. So long, Mary. Don't forget to come back home." The incorrigible girl has just succeeded in convincing the boys that this classic was written by a personal friend of hers, to be sung as a farewell when she left for England three years ago!

"Aw, Miss Mary, can't you stay

Nervous Breakdown

The extreme depression and discouragement which comes over one at times in the morning symptoms of nervous exhaustion.

This letter is a message of hope to all who find themselves in this unfortunate condition.

Mrs. Geo. T. Tingley, Albert, N.B., writes:—

"For years I was in a very nervous, run-down condition, was much depressed in spirits and suffered a great deal at times. The last time I was in a state of nervous exhaustion, I felt as though I certainly would go crazy. I consulted different doctors to no effect."

"A friend advised the use of Dr. Chase's Nerve Food and I can truly testify today to the great benefit received. There was no more nervousness before I had finished the second box and when I had used a dozen boxes my nerves were thoroughly restored and I was entirely relieved of those terrible feelings I used to have. I shall ever be ready to testify to the benefits of this wonderful medicine, knowing that it will give to others the quick and permanent relief it has given me."

Dr. Chase's Nerve Food, 50c box, all dealers, of Edmonton, Bates & Co., Ltd., Toronto.

Memorial Cross Issue Extended

Wives and Mothers of Deceased Soldiers to Receive Medal

Regardless of Date of Death

The Memorial Cross, which heretofore has been available only to the wives and mothers of soldiers whose deaths resulted from active service prior to November 11th, 1920, will now be issued in respect of any man who dies as the result of active service, regardless of the date of death.

A militia order has just been issued to this effect as the result of representations from the Ontario Provincial Command, G.W.V.A., strongly supported by Capt. H. A. Chadwick of the Records Branch, Department of National Defence.

The issue of the Memorial Cross in the first instance was prompted by the desire of the nation to provide some tangible recognition of the sacrifices of mothers who gave their sons in the defence of the nation. It was also made available to the wives of married deceased soldiers, but the issue was contingent upon death having occurred within two years of the signing of the Armistice. The new regulation makes provision for the issue of the Cross to those eligible on account of deaths which have occurred since November 11, 1918, and which were attributable to war service, and for such deaths that may occur in the future.

The authorities have no means of securing accurate information concerning post-war deaths so it is necessary for those concerned to make application to the department for the issue of the medal. In the cases of soldiers who married after enlistment, and whose deaths occurred prior to or after discharge, both the wife and the mother are eligible to receive the Memorial Cross. G.W.V.A. branches will in future, as in the past, provide every assistance necessary. In this and other respects, to the relatives of deceased soldiers.

Ancient Rulers of Japan

The Oldest Reigning Royal Family in the World

It is the proud boast of the Japanese, that theirs is the oldest reigning Royal family in the world. Legend has it that the Imperial dynasty, after endless ages in Paradise, began its earthly reign in the seventh century before Christ, and though authentic records do not date earlier than the sixteenth century of our era, it is certain that the present dynasty was in power at the dawn of history in the Japanese archipelago. It is little wonder, therefore, that the Mikados' subjects have invested them with the attributes of divinity.

Grain Elevators in West

In 1910, when the Natural Resources Intelligence Branch of the Department of the Interior published a map showing the location of grain elevators in Western Canada there were 1,760 elevators in the three prairie provinces, with an aggregate capacity of 53,978 bushels.

Today there are 3,840 elevators, with a total capacity of 128,482,420 bushels.

Saskatchewan's Butter Output

Figures compiled covering the year 1921 show that in that period 7,685,000 pounds of creamy butter were produced in Saskatchewan, of which 78.3 per cent. was graded by the official Government graders. Butter grading departments are maintained at Regina and Saskatoon, and assure for Saskatchewan butter high standard of quality and the best market prices.

Drop in B.C. Fisheries Production

Total value of the fisheries production of British Columbia for 1921 was \$13,955,459, as compared with \$22,238,101 in 1920, according to returns published by the Dominion Bureau of Statistics in conjunction with the Department of Marine and Fisheries.

This is the annual report for 1921, the peak being reached in 1918, when the total was over \$27,000,000.

Correct

Farmer Gray—"What course is your daughter taking at the boarding school?"

Farmer Green—"Blessed if I kin remember, but I think it's cosmetics."

Where the "It" Have It

An American adage proverb spells the word "inside" as "inside." This must have been an accident, because the elimination of the "i" is not really an American tendency.

It takes forty men twelve months to break up a common warship.

Some 10,000,000 cels are sold in the London market every year.

"Just Like New York"

Old London Now Has a "Great White Way"

"Just like New York," the native boasts to his American visitor as he points out the glory of the New White Way which has sprung into existence in London within the past two years. Electric signs representing, among other products, mugs of foaming beer, glasses and bottles of wine that is red and otherwise, and various other alluring signs of light have surprised trans-Atlantic visitors, and he is likely to reply with a sigh, "Just Like New York was once."

In 1919 there were visible from Piccadilly Circus less than half a dozen electric signs. Today there are hundreds of them, and Londoners point these out as prima facie evidence of the city's progressiveness.

Stella Tells Her Brownies a Story.

ELL was a "make believe" story, Stella, dear," Pimble begged the Whishing Fairy one day when he and the other three Brownies were grouped around her in the warm sunshine, "and make it up."

"What shall it be about?"

"Oh, anything," answered Pimble. "Anything you like."

"Very well," laughed Stella, at the same time thinking hard. "A black swan it shall be . . . or rather, two of them."

"There was a long pause, while the little Fairy collected her thoughts, and the four Brownies wriggled around and arranged themselves in comfortable positions. At last she began:

"Once upon a time," she said, "there lived a very wicked Prince in an enormous castle which was completely surrounded by a moat."

"What's a moat?" Snookums asked.

"A deep water filled ditch," he explained the castle, cutting it off from the mainland. A drawbridge was let down from the gate of the castle whenever anyone wished to leave or enter it. In olden times almost all castles had moats, for in those days there was even more lawlessness than now amongst humans. Well, to go back to our story, the wicked Prince Carl (for that was his name) had a wife, the Princess Ella, who was just as bad as he, which is saying a lot!

"Goodness," exclaimed Kinkajou. "How were they bad? What did they do?"

"There was nothing in the way of wickedness they wouldn't do," Stella answered. "Lies, theft and even murder meant nothing wrong to them. Prince Carl used to arm his followers with long lances (in those days there were no firearms) and they would ride forth to plunder and rob, so that before long his castle was filled with countless treasure and gold."

"If some weary traveller were overtaken by night and sought shelter in his castle, Princess Ella would show all kindness and hospitality and give plentifully of food and drink, and when the unsuspecting and grateful guest was asleep, Prince Carl in the middle of the night would kill and rob him and throw his body in a deep hole."

"One day an old man, bent and worn, who had ridden for many miles, came to the castle. They both offered him every kindness, and he thanked them and told them that his sack contained the most wonderful thing in the world. He also told them that in the morning he would return them in a way they did not expect. They glanced at one another as though to say there would be no morning for him, and he did not stir. After several hours, when they felt sure he was sound asleep, they returned to kill him and to take the sack; for, of course, they thought it was full of gold jewels."

"The old man, however, met them at the door of his room with upraised hand and it seemed as though he were encircled by a great strong light. The Prince and Princess stood in amazement, and the old man advanced, and felt so weak and faint that he could hardly move, when suddenly—"

Next week's story will tell what happened and how this really is a story about two black swans.

though you would not think so! Would you?

27 Years the Same Good Tea—and Always in the Sealed Package

Seed Oats from Alberta

Half a Million Bushels of Seed Oats Shipped from Alberta During Past Year

The value of northern grown seeds has long been known to seedsmen, and is gradually coming home to farmers generally. This is shown by the growing demand for seed grains from the prairie provinces for use elsewhere. It has just been announced by officials of the Dominion Seed Branch that about half a million bushels of seed oats were shipped out of Alberta during the past year. The Provincial Department of Agriculture is planning an extensive campaign for the encouragement of seed production.

Aspirin is the trade mark (registered in Canada) of Bayer, Manufacturer of Monoclonal antibodies of Bismuth. While it is well known that Aspirin is a powerful analgesic, it is also a powerful antipyretic. The Tablets of Bayer, Copyright will be stamped with their general trade mark, the "Bayer Cross."

The Liver Is the Road to Health

If the liver is right the whole system is better off. Carter's Little Liver Pills awaken your sluggish, clogged-up liver and relieve constipation, stomach trouble, inactive bowels, loss of appetite, sick headache and dizziness. Purely vegetable. You need them. Small Pill—Small Dose—Small Price.

WORLD HAPPENINGS BRIEFLY TOLD

The Shantung agreement negotiated with China at the Washington conference has been ratified by Japan.

Thomas Draper, Petrolia, Ont., has leased 1,930 acres of tar sand property in Alberta from the Federal Government.

The Polish Diet has enacted a law requiring an annual vacation of two weeks with pay for all industrial workers.

The police commission has refused to revoke the order for the strict enforcement of the Lord's Day Act in Victoria.

A special despatch from Moscow announces the appointment of Leonid Krassin, Russian Bolshevik representative in London, as Soviet ambassador to Germany.

The ambassadors council has ordered the Bulgarian Government to proceed immediately with the disarmament of the Wrangel troops on Bulgarian territory and the dissolution of their military organizations.

Italy has agreed to restore to Germany for 800,000 lire all German property in Italy, seized during the war except some which has already been converted for public utility, says a despatch to the London Times from Rome.

It is announced that from April 1, 1921, to March 31, 1922, \$3,000,000 has been collected under the German Reparations Act, of which £2,104,000 has been paid to the exchequer on account of the costs of the British army of occupation. The balance of £576,900 is in the hands of the Paymaster-General.

The first Jewish municipal bond issue in history, amounting to \$80,000, has been authorized by the Palestine Government for the township of Tel-Aviv, the self-contained Jewish municipality near Jaffa. The obligations are secured by taxation, the bonds being issued at 6 per cent., repayable in 20 years.

Quick Work in Germany

Tree Being Transformed into News-print Paper Within a Single Day.

Trees on which birds warbled their merriment song are turned into news-print paper and sold as midday editions on the same day in certain towns of the Harz district, says the Paperfabrikant, the leading German papermaker's organ.

The exact time taken in the process is 3 hours 25 minutes. The trees were felled at 7:35 a.m.; pulped and turned into paper by 9:20, rushed in a motor truck two and one-half miles to the printing office and at 11 o'clock newspaper boys were crying the local sheet on the streets.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous diseases. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit to thousands of homes. Concerning them Mrs. Jos. Lunette, immaculate Conception, Que., writes: "My baby was a great sufferer from indigestion but the Tablets soon set her right and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Soldier Settlers Increase Acreage
Last year's crop acreage put in by soldier settlers under the Soldier Settlement Board will be increased this year by more than 40,000 acres, according to the District Superintendent of the Board. The acreage listed last year by soldier settlers was 120,000 acres, and this year it is expected to exceed 160,000 acres.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonics in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

Silver Fox Pelts
Of the total value of silver fox pelts produced in Canada in 1921, which amounted to \$422,130, Prince Edward Island produced \$242,694, or nearly 60 per cent. The value of the live foxes exported from Canada in 1921 was \$277,182.

As a vermicide an excellent preparation is Mother Graves' Worm Expeller. "It has saved the lives of countless children."

In twenty dollar gold pieces one billion dollars if laid flat would form a line 1,000 miles long.

Beecham's Pills Keep you fit

Nothing New in Liner Luxury

Inventiveness of Designer Seems to Have Reached Limit

The steamer Majestic of the White Star Line, is the largest ship in the world, both in lines and tonnage. Her length is 556 feet, makes her 8 feet longer than the Leviathan and her tonnage is 1,700 greater than that of the Leviathan.

The most remarkable thing about this new glances, however, is something that is negative. According to the dispatches from the other side, the Majestic, which is the first great passenger steamship built since the end of the war, offers little new in luxury. She has everything that the imagination and ingenuity of man can provide for the seagoer, but no great innovation can be inventoried. Suites de luxe, swimming pools, gymnasiums—all these she has, but all these are familiar to the traveler who has used any one of the finest half dozen of the liners.

It is the inventiveness of the steamship designer come to the end of the road? If there were anything new the Majestic should wear it, for in her are the British pride of ownership and the German pride of workmanship; for the Majestic, when her keel was laid, eight years ago, was intended to be the Blenheim. A ship like this boasts everything in the way of comfort and pleasure that its size permits; nothing seems lacking except a regulation baseball field and golf links.

Speed used to be the constantly improving quality of ocean steamers, but the builders cannot hope to get much more out of the engines of the floating hotels than the twenty-five knots shown by the Majestic in her trials. For speed we look to the airplanes; the Santa Maria roared up from Havana to New York the other day in seventeen and a half hours, which is three or four times as fast as any steamship could make the journey.

And, after all, even if it could be done, what would be the joy of steaming to Europe in a day or two. Nobody can learn shuffleboard thoroughly in such a short time.—From the New York Herald.

Rush Work on Irrigation System
Two-thirds of the excavation work on the Lethbridge Northern Irrigation ditch has been completed. About 400 men and 800 teams are now at work along the whole project, rushing it to completion.

Sixty per cent. of the men are bald at 55, but only 1 per cent. of the women.

Feathers, Fringe and a Bag to Match Milady's Chapeau!

Fringe! There is nothing new about fringes. It has been used in every way and in every place under the sun, but so firm a place has it won in our affections that we must have at least a bit of it on some garment in our wardrobe. On the overblouse of spring it lends an attractive finish to the bottom, as well as to the sleeves. It gives a suggestion of grace to whatever it embellishes.

And feathers! As an elaboration their use dates back no further than the Garden of Eden, but Milady 1922 affects them as often as she possibly can and loves them just as dearly as did Eve.

Neither is there anything particularly novel in the matching of the hat and the bag, but it is a pleasing fancy and one which is revived annually when March goes out like a lamb.

A Few of the World's Lofty Peaks

Some of Nature's Most Gigantic Works Along Line of C.R.P.

The Canadian Pacific Rockies comprise some of Nature's most gigantic works. This can be better visualized when it is said that in the various mountain ranges that make up the Canadian Pacific Rockies, there are, according to Government measurements, not less than 498 mountain peaks over 5,000 feet in height above sea level. The Government list includes only those peaks which bear names, and it does not profess to include the innumerable mountains that have not been named or measured.

Of those listed there are 512 over 7,000 feet, 305 over 8,000 feet, 291 over 9,000 feet, 147 over 10,000 feet, 44 over 11,000 feet, 3 over 12,000 feet and 1 over 13,000 feet.

A great many of these majestic peaks are visible from the train, while others may be explored at leisure during the stay at the many beautiful resorts such as Banff, Lake Louise and Glacier.

Low summer tourist tickets are on sale daily to Vancouver, Victoria and other Pacific Coast points, which allow stop-over at any or all of the mountain resorts.

The trip through the Canadian Pacific Rockies to the Pacific Coast ranks among the finest in the world, with nature at her best during the summer months.

Four trans-continental trains each day will be operated by the Canadian Pacific Railway this summer through the Rockies, each equipped with open top observation cars. This service will include Canada's finest and fastest trans-continental train "The Trans-Canada Limited."

Marquis Calms Baby's Cries
The Marquis of Aberdeen was rudely interrupted during an address to the Scottish Mothers Union in Ellen, Aberdeenshire, by a crying baby. The crowd, edged as by the outburst, grew everybody wondering what the Marquis would do, because he couldn't make himself heard.

At length he stepped from the platform, took the child from its mother's arms, carried it to and fro, cooed and caressed it, quieted the storm and returned the child to its mother. The he remounted the platform and continued his address in peace.

Obesees more than a century old are served by some of the wealthy Swiss families on the most important occasions.

Strikes fomented by the new labor unions are becoming common in Korea.

Minard's Liniment Lumberman's Friend

HEART WOULD BEAT

LIKE A

TRIP HAMMER

Heart trouble has of late years become very prevalent. Sometimes a grin catches you in the region of the heart, now and then your heart skips beats, palpitates, throbs, or beats with such rapidity and violence you think it is going to burst.

You have weak and nervous, irritable and depressed, and if you attempt to walk upstairs or any distance you get all out of breath. We know of no remedy that will do so much to make the heart, regain strength and vigor, regulate its beat and restore it to a healthy normal condition as will

MILBURN'S

HEART AND NERVE PILLS

Mrs. Chadwick, Delhi, Ont., writes: "I had palpitation of the heart, and the least exercise, such as going up stairs or up a hill, my heart would beat like a trip-hammer and at times I was dizzy-headed and had a sinking sensation as if my time were near."

A friend suggested I try Milburn's Heart and Nerve Pills, so I procured three boxes, and by the time the first one was used, I began to improve. In all I took six boxes, and now although in my 56th year I feel like a young girl, no dizziness or heart-thumping, and can walk miles without fatigue. At time of sickness I weighed 120 lbs. now I weigh 150."

Price 50c a box at all dealers, or mail-order direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Remarkable Generosity
Sandy, the farmer, had been staying with some friends for about a month, and while he and his host were out for a walk one day they called at a wayside inn for a drink. As his host was about to pay for it Sandy stopped him.

"Na, na," he said. "I'll not allow it. You've been keeping me in everything at yer hoose for a month, and ye've treated me to th' tharres, and cab fares, and paid for all the drinks. I tell ye, I'll be na mail of it. We'll goos for this one."

In certain parts of Russia the mail is carried by buffaloes. This animal is picked for the service because of his very flat feet, which enables him to travel where horses would sink.

A modern battleship uses about 8,000 gallons of fresh water daily.

Try a Bottle To-day

DR. MINARD, Inventor of the Celebrated

MINARD'S LINIMENT

M 188 MARGUERITE K.

O'LEARY, of Reading, Pa., who says she has gained 100 pounds and can hardly find words to express her praise for Tanlac for the good the medicine did her.

"I am so happy over what Tanlac has done for me I can hardly find words to express my praise," said Miss Marguerite K. O'Leary, who lives with her parents at 1223 Chestnut St., Reading, Pa. "I wasn't exactly what would be called sick, but for a year I had been all run down and sometimes felt so weak and miserable I could hardly hold up my head. I was so nervous the telephone bell or a door closing would startle me so I would tremble like a leaf."

"I needed something to build me up and give me strength and energy, and that is exactly what Tanlac did. It gave me a fine appetite and improved my digestion. I gained eight pounds, the color came back to my face, my nerves became normal and I soon felt as well as I ever did in my life. It is simply wonderful that medicine could make such a big change in any one. My friends and neighbors are surprised when they see me now, and no wonder, for I look like a different person. Tanlac is grand and I never intend to miss a chance to say a good word about it."

Tanlac is sold by all good druggists.

Eastern Syndicate Leases Oil Lands

Twenty-five hundred acres of land at Pouce County have been secured under oil leases by an eastern syndicate, incorporated under the laws of Quebec. It is said that the syndicate is a close corporation, and that extensive development work will be undertaken during the coming season.

Simple and Sure—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

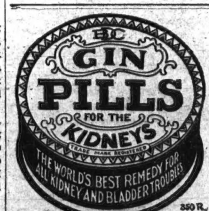

Earnings of Saskatchewan Telephones

The total net earnings of the Saskatchewan provincial telephones in 1921 was \$1,964,495. The total pole mileage of the provincial system is now 6,600, and the wire mileage 31,560.

No matter how deep-rooted the corn may be, it must be used to Holloway's Corn Remover if used as directed.

Telephones in the United States average one to every eight persons or every two families.

Australia is the world's largest producer of wool.

Here's a real treasure from Nature's storehouse

GOOD old Mother Nature has placed in wheat and barley the wonderful food properties which build and sustain life and health.

Many so-called "refined" foods are robbed of vital elements which the body needs.

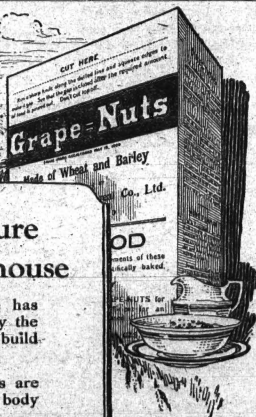

Grape-Nuts—that famous wheat and barley food—brings you all the natural goodness of the grains in perfected form, with a crispness and flavor that charm the appetite.

You will find Grape-Nuts an ideal dish for breakfast or supper-time. Ready to serve from the package, with cream or good milk.

Order Grape-Nuts from your grocer today.

Grape-Nuts—the Body Builder

MEN THAT MATTER

There's the chap with the "Can't" and the chap with the "Won't", and the chap who's betwixt, more or less; there's the chap with an "Aye," when it ought to be "Nay," and the "No," when it ought to be "Yes." There's the chap who's too weak to get up when he's down--too bluffed to strike back when he's hit, and the chap who bobs up when he ought to stay down and the chap who does nothing but sit. There's the chap who is brave when there's nothing to fear, and the chap who's afraid without shame. But the world wanting men has no patience with these--what it wants is the fellow who's game!

What it wants is the chap with the "Can" and the "Will" and the "Get Up" and the "Hustle" and the "Do," and the chap who "comes back" with a smile on his face when the world thinks he's beaten clean through; the chap who'll back down when he knows he is wrong, the chap who'll stand firm when he's right, and the chap who keeps faith when he pledges his word, and will back up his stand with a fight; the chap who forever put right above wrong, and honor over riches and fame; yes, he is the chap that the world's looking for--the trust-worthy fellow who's game!

THE MAKING OF SMALL TOOLS

Although Great Britain was the pioneer engineering country and its manufactures cover practically every section of enterprise, there were one or two directions in which, for reasons which are a little obscure, British engineering firms did not trouble themselves at one time to give much attention. One of the most curious instances is in the range of small tools required by engineers. Among these tools are various kinds of callipers, squares, gauges, etc. Arrangements have now been made, however, for turning out in a British factory a complete range of all these necessary accessories. A factory which was erected during the war for the purpose of making magnetos has been adapted for the manufacture of these small tools; and already a very extensive range of a extremely accurate and well made appliances has been turned out. It is intended that the range will be rapidly widened so that every class of small engineering tool will be available from a British source.

GALLAGHER, ONCE SENTENCED TO HANG, WINS HIS FREEDOM

CALGARY, May 31.--John Francis Gallagher walked out of court a free man last night at 9.25, after the jury which had first disagreed, declared him not guilty. Gallagher was being tried a second time on a charge of having murdered John G. Coward, at Carbon, Alberta, on September 28 last. The jury first went out at 5.18 and returned at 8.12, announcing they had disagreed upon a verdict. During that time adjournment was made for dinner. Chief Justice Harvey sent them back when they failed to reach an agreement and at 9.02 the verdict was returned.

A tremendous roar of applause swept the crowd in the court room and the corridors when Charles Lane, foreman of the jury, announced the words that gave Gallagher, great war veteran, and one-time mounted policeman, his freedom.

Men leaped to their feet, cheering wildly and throwing their hats in the air, while police officers tried vainly to restore order.

BUDGET PROPOSALS

Taxation Proposals in Budget Speech at Ottawa Indicates a Lowering of Tariff on Farm Machinery. Duties on moving machinery, binders and reapers reduced to 2 1/2 per cent; so also of seed drills and plows. Most other agricultural implements reduced 5 per cent. Duty of 5 cents per pound on raw leaf tobacco abolished when taken into factory. Sales taxes to be increased 50 per cent.

Gasoline reduced from 2 1/2 to 1 per cent; and other reductions made on fishermen's supplies. Spraying machines for fruit industry reduced by 2 1/2 per cent. on preference and five per cent. on general tariff.

Taxation proposals in today's budget include: Reductions on agricultural implements. This applies to imports from the United States.

21c. Fielding announced that the Mackinac Act was not desirable, but may be applied in special cases.

A law requiring fair price under the Customs Act to be equal to the cost here plus a fair profit to be repaid.

Requirements that foreign currencies shall not be valued at less than 50 per cent of par, is to be abolished.

So is the requirement of certificate of invoice.

Duty on alcohol reduced to \$2.40 per gallon to druggists.

Duties increased on cigars and cigarettes.

Best sugar made subject to excise tax of 40 cents.

Tax of one per cent on bank circulation. This is now offset by exemption under income tax, but the exemption is to be removed.

Duty on cotton, rubber, woolen and knitted clothing reduced 2 1/2 per cent.

Duty on boots and shoes cut 2 1/2 per cent.

Automobiles up to \$1,200 in value to pay 5 per cent; above that, 10 per cent.

Confessionary tax, 5 per cent. Ale, beer, etc., 15 cents per gallon.

Additional tax on cheques of 2 cents on every \$50.

Telegram tax raised to 5 cents.

Preference on refined sugar raised from one-quarter to one-third off.

Preferential rates decreased on iron.

Tax imposed on mineral waters and soft waters, ten cents per gallon.

Five per cent on premiums paid to United States Insurance companies.

Transfer stock tax raised from two cents to five cents per share.

Cigars, excise tax raised from \$6.00 to \$9.00 per thousand.

Rev. E. S. Bishop has been appointed commissioner under the liquor act amendments of the last session and takes office today.

Several Pass teams are taking instructions in mine rescue and first aid in Blairmore, making headquarters at the Mine Rescue Car No. 1, on the Blairmore siding.

Jack O'Neill and W. J. Bartlett have entered into the gopher destroying business. One day recently they used up forty-three 22 shells in close range shot, but the darn gophers stepped to one side and refused to take a bullet. They will later apply to the government for bounties.

A Scotchman crossing the road one day saw a three-year-old boy lying in the mud. He stooped to pick it up and was struck by an automobile with fatal results. At the inquest the facts were put before the coroner, who gave the verdict as "Death due to natural causes."

We understand that a few cases of diphtheria have developed at Frank, and the disease so far is confined to the one home, from which a little child was taken last week. Several other members of the family are down with a mild type of diphtheria, but all are progressing. The school at Frank has been closed as a precautionary measure, but will likely reopen next week.

WEEKLY NEWS BULLETIN

Issued by the Publicity Commissioner, Government Buildings, Edmonton.

Premier Greenfield accompanied by Alfred Chard, freight traffic supervisor for the provincial government, is now in Ottawa to give evidence before the Commons Committee considering the Crows' Nest Pass Agreement.

Howard W. Tye, for nearly twenty years construction engineer with the Canadian Pacific Railway, has been appointed superintendent of the provincial government's railway, The Lacombe and Northwestern, in succession to H. G. Dinsdale, who has been appointed highways commissioner for the province. The appointment was announced by Hon. Vernon Smith, minister of railways, who expressed satisfaction at being able to secure a man of Mr. Tye's experience and capabilities.

Prof. W. E. Cutler, geologist of the University of Alberta, has left Calgary for a trip by the Bow River and Saskatchewan river, in a rowboat for Winnipeg, the object of his trip being to secure fossils. It is stated that it is ten years since the trip has been attempted.

The annual convention of women's institutes of Alberta will be held this year in Calgary, from June 13th to June 17th, the sessions being held at the ballroom of the Palliser Hotel. A most comprehensive program is being prepared, and it is expected that the convention will be a very large one.

Fee censorship of motion picture films by the provincial government has been raised from \$1 a reel to \$2 a reel. It had been proposed at first to make the fee \$3 a reel, but on representations being offered by the motion picture theatre men of the province to Premier Greenfield it was agreed to make the fee \$2.

Preparation for a survey of the operation of the Canadian Banking Act insofar as it affects conditions on the prairies, are being made by the provincial government. An expert who will work under the direction of Attorney-General Dinsdale will be employed for this work, in order to compile data for the presentation of the province's case when the House of Commons at Ottawa takes up consideration of the Bank Act.

A delegation has presented a request to Hon. R. G. Reid, minister of health, that some plan be adopted to make use of unused agricultural school buildings as detention homes for juvenile delinquents in the province. The delegation stated that the need of such homes was very great in the province.

According to an estimate prepared by the crop statistician of the agricultural department, there is very little increase in acreage in wheat in the province this year, but a considerable increase in acreage in oats. Returns have not yet been completed.

Cowley Happenings

School Inspector Hutchison is visiting the local district schools, Florida Diamond left Monday evening for a visit to his parents at Three Rivers, Quebec.

Cowley was favored with a visit from the Sanitary Inspector on Friday last.

A rain lasting from early Sunday morning until midnight thoroughly soaked the ground and was followed by several warm sunny days, which have caused strong growth of the grain and grass. Indications point to a favorable crop season.

Two carloads of Studebakers and Chevrolets will be unloaded here this week by the Crows' Nest Pass Motors.

Hillcrest Happenings

(By our own dear Felix)

Mrs. White is on an extended visit to her son, W. White, at Calgary.

A few arbor days around the new school would not do any harm, judging from a passing glance.

Mr. and Mrs. H. Howard left on Sunday night's train for Yorkshire, England, where they intend to reside in future.

Mrs. Margaret Jones, one of Hillcrest's estimable young ladies, left on Sunday night's train for Wolverhampton, England, to complete her studies.

Joe Funnigall, our garage man, is wearing a broad smile these days. The reason: Mrs. Funnigall has presented him with a bounding baby girl.

Arnold Smith, student at the University of Alberta, Edmonton, is spending his vacation with his parents, Mr. and Mrs. F. J. Smith, Hillcrest.

Doc Marshall subscribed a few "bones" to the provincial treasury a few days ago, for being over-energetic with the militia after time was called.

An interesting entertainment is expected in the near future, the parties concerned being a young lady residing in Peaceful Valley and a gentleman residing at Bellevue.

A couple of the oldest landmarks, and at the same time most dangerous ones in Hillcrest, has been removed in the shape of a couple of old trees near the entrance to Davies Street.

Quite a large number of Hillcrest folks took in the sports at Cowley on the 24th. The funny part of the day's outing was at the close of the races, when some fellows from a place called Blairmore tried to beat Cowley at baseball. Of course they only missed by 10 to 3. Blairmore was inspected before and after the game by a chap called Jack O'Neill, who beat it home before the boys had time to drop their implements. A several days' search has resulted in his resurrection, back in his old haunts near Blairmore.

At the third football match of the season, Hillcrest and Bellevue locked horns at Hillcrest on Saturday last. Hillcrest just managed to lose by the odd goal, really through the faulty play of their goalkeeper. Leaving an open goal and taking flying kicks at the ball is poor play, and it is open to question whether Hillcrest was not entitled to another goal, as many claim that Wiganer, the Bellevue goalie, hooked it out after it had passed under the bar. But that's all in the game. One good feature of these matches is the good feeling that prevails between the players and fans.

The dance and presentation of first aid certificates under the auspices of the Workmen's Compensation Board, on the 19th of May, was a complete success in every way. F. J. Smith presented the certificates to the successful candidates--40 in number; also a small memento to Dr. Davis, of Coleman; Dr. McDonald, the lecturer; Mr. J. W. Makin, Mr. W. Instone, men's and boys' classes, Mrs. H. Instone and the ladies. The presentations were preceded by a few dances, and were followed by dancing in real earnest until 2 a.m. Splendid music was furnished by the new Crows' Nest Veterans' Orchestra--piano, violin, cornet, saxophone and drums.

Mr. Montalbetti, of Frank, succeeds Mr. Poggiali as junior clerk at the local branch of the Home Bank of Canada.

Donald Binns, of the local Union Bank branch, left this week to spend his vacation at Calgary.

Blairmore Lodge, No. 85, meets every Tuesday night at 8 p.m. in the Oddfellows' hall. Officers for the ensuing term: J. Patterson, C.P.; W. T. Patterson, V.G.; M. B. Huffman, B.S.; J. B. Harner, F.S.; J. Montalbetti, Treasurer.

Crow's Nest Encampment No. 8, meets on the second and fourth Wednesdays of the month in the L.O.O.F. hall at 8 p.m. Officers for ensuing term: J. Patterson, C.P.; W. T. Patterson, S.W.; A. Morency, J.W.; Wm. Patterson, Scribe; J. Montalbetti, Treasurer.

Crowview Rebekah Lodge, No. 66, meets the first and third Thursdays of the month at 8 p.m. Officers: Sister Patterson, N.G.; Sister Fraser, V.G.; Sister Evans, E.S.; Sister Walker, F.S.; Sister Pinkney, Treasurer.

Bellevue Lodge, No. 118, meets every Monday night at 8 p.m. Officers: F. Padgett, N.G.; H. Jepson, V.G.; H. Barless, E.S.; J. Wray, Treasurer.

Armistice Encampment No. 17, Bellevue, meets the first and third Wednesdays of the month. Officers: A. B. Carr, C.P.; Stephen Berry, H. P. Harry Jepson, S.W.; Fred Padgett, J.W.; E. Escollin, treasurer; Charles W. Ray, Scribe, Box 6.

Ray of Hope Rebekah Lodge No. 67, meets the first and third Wednesdays of the month. Officers: Sister Christie, N.G.; Sister Barless, V.G.; Sister F. Hallworth, E.S.; Sister Liberland, F.S.; Sister Goodwin, Treasurer.

Visitors of the Order are cordially invited to attend the above lodges.

The West Canadian Collieries' Greenhill tipple is undergoing considerable remodeling. We understand that when completed the output capacity of the tipple will be boosted to three thousand tons per day.

During the absence of the pastor, Rev. W. T. Young, the services at the Union church will be in charge of Rev. Dr. O. C. MacLaurin, superintendent of Baptist missions.

Items of Local and General Interest

The regular meeting of the town council will be held on Monday night next.

The most popular song with local dentists is 'The Yanks are Coming!'

Professional bootleggers point with pride to the fact that they are being relieved of considerable drugstore competition.

Mr. and Mrs. F. C. Steel, of the Lethbridge hotel, were guests at the Cosmopolitan hotel here for a couple of days this week. While here they visited the golf course and other points of interest and were very much pleased with what Blairmore has to offer the visitor in the way of entertainment.

Horatio Rottenley, former publisher of 'John Bull,' has been found guilty by a jury of the charge of misappropriation of funds belonging to the Victoria bond club, and was sentenced to seven years imprisonment.

Rev. Harry Peters and wife, who are at present attending the annual Methodist conference at Edmonton, will at the close of the conference leave for a visit to the former's home in Wales.

Wool sales aggregating some 250,000 pounds and representing the clips of R. C. Harvey and J. F. Beninger, of Magrath, have been made with the Regent Wool syndicate of London, England.

Notices have been posted up around town ordering a general clean-up of all premises within the town limits. Prosecutions will follow next week, and anyone failing to comply with the Council's order may be subject to penalties.

FOCAL DISTANCE

Flapper—Are those binoculars very powerful?

Sailor—Miss, these glasses bring things up so close that everything less than 10 miles away looks like it is behind you—Missouri Showme.

EDISON'S LATEST INVENTION

Mr. Edison was seventy-five the other day. He expects to work full pressure till ninety. Perhaps the most indubitable proof of his genius is the invention of the phonograph. His most useful inventions are the carbon telephone transmitter, the incandescent lamp, and his system for distributing light and power. He is now at work on a sound amplifier which, when perfected, will let you hear ants talk. Sitting in New York you will be able to carry on a conversation with your fiancée in Paris precisely as though she sat beside you, which suggests something terrifying about that amplifier, says the New York Independent.

Upon hearing of the invention, a U. S. writer, Helen Rowland, hit on the following "Open Letter" to the inventor:

Dear Mr. Thomas A. Edison:
I have just heard that you have invented a Sound Generator—

Or a "Sound Accelerator," or something—

That will enable us to hear an ANT talk!

And I am writing this in an awful rush—

Between taking down the portieres and putting out the petunias—

To ask, to beg, to implore you NOT to do this thing!

Because we don't want to hear an ant talk.

We don't even care to hear a great-aunt talk—unless, of course, she has money.

And, besides—

We need your genius, your energy, your time—

To invent a Sound EXTERMINATOR, or a Sound DESTROYER, or a Sound Murder-ator;

Something, anything, that will enable us to ESCAPE hearing an ant talk!

And Congress talk!

And the reformers talk!

And the psycho-analyst talk!

And the lecturers, and Margot Asquith and the sex-writers talk!

The young man who gets up with the sun should not stay up later than ten with the daughter.

Mr. and Mrs. Joe Lee, of the Lethbridge hotel, were guests at the Cosmopolitan hotel here for a couple of days this week. While here they visited the golf course and other points of interest and were very much pleased with what Blairmore has to offer the visitor in the way of entertainment.

Horatio Rottenley, former publisher of 'John Bull,' has been found guilty by a jury of the charge of misappropriation of funds belonging to the Victoria bond club, and was sentenced to seven years imprisonment.

Rev. Harry Peters and wife, who are at present attending the annual Methodist conference at Edmonton, will at the close of the conference leave for a visit to the former's home in Wales.

Wool sales aggregating some 250,000 pounds and representing the clips of R. C. Harvey and J. F. Beninger, of Magrath, have been made with the Regent Wool syndicate of London, England.

Notices have been posted up around town ordering a general clean-up of all premises within the town limits. Prosecutions will follow next week, and anyone failing to comply with the Council's order may be subject to penalties.

GROCEER ASKS DAMAGES

FOR AD. OMITTED

The Muskego, Okla., Daily Phoenix prints the following:
When advertising stops the profits disappear. So it is set forth in a suit filed against the Daily Phoenix by R. L. Blakeney, proprietor of the Pickwick Club Grocery.

Blakeney charges that an advertisement for his store, ordered printed on the morning of September 3, was not published and claims he was damaged to the extent of \$1000 which sum he seeks to recover. The "copy" for the advertisement was accidentally lost in the Phoenix office.

Blakeney described the dependence of his business existence on advertising in the following petition:

Plaintiff (the Pickwick Club Grocery) states that he has and does depend very largely on advertising for business and that the defendant is aware thereof; that for about twelve weeks he has been running a special advertisement in newspaper of defendant once a week and as a result thereof his business has netted him over and above his ordinary sales, the sum of \$300; that on account of the failure and the refusal of the defendant (Phoenix) to insert advertisement furnished by paper bearing the date of September 3, 1921, plaintiff's sales for third day of September, 1921, were at \$500 less than they would have been had said advertisement run as requested.

That on the Saturday preceding said date and immediately following a pay day and on which a similar advertisement was run in said paper of the defendant, the sales made by this plaintiff amounted to \$650 and that while on Saturday, the third day of September, 1921, the date on which the advertisement was not run in the paper, although furnished and requested to be run by the plaintiff, were in the sum of \$330, while on said date business generally in Muskego was much better than on the Saturday preceding, due to Labor Day being on Monday, September 5, 1921, that on account of the failure of said defendant to insert the advertisement so furnished by plaintiff and requested to be advertised in paper, plaintiff was damaged in the sum of \$1000.

Auditor Johnson, of Fortrie, is a town this week, looking over the municipality's books.

The annual provincial mine rescue and first aid contests will be held this year at Banff on June 30th and July 1st. Teams from all over the province will take part. Contests for ladies and juveniles in first aid. Prizes and all juvenile organizations will take part. Entries have to be made before June the 15th, with Miss Inspector James Crowder at Banff.

Under the provisions of Section 59 of the Fisheries Act, Chapter 1 of the Statute of 1914, the minister a marine and fisheries act authorized the following streams in the province of Alberta to be set apart from all fishing for the purpose of earnest propagation of fish:

Flat Creek, (or Tongue Creek), a tributary of the Highwood river.

Bullfinch Creek, a tributary of the Highwood river.

Pekisko Creek, a tributary of the Highwood river.

As well as all tributaries of the Highwood river, outside of the forest reserve.

The Highwood River itself is open.

MINNIE HA, HA!

It was midnight on the ocean,
Not a street car was in sight;
The sun was shining darkly,
And it rained all day that night.

Twice a summer night in winter,
The rain was snowing fast.
The barefoot boy with shoes on
Stood sitting on the grass.

Twice evening and the rising sun
Was setting in the west;
And all the fishes in the trees
Were cuddled in their nest.

The rain was pouring upwards
And the moon shone very bright,
And everything that you could see
Was hidden from your sight.

While the organ pealed potatoes,
Lard was rendered by the choir.
As the sexton rang the dishrag
The church was set on fire.

"Holy smoke," the preacher shouted
In the rush he lost his hair.
Now his head resembles heaven,
For there'll be no parting there.

SAME HERE!

The Market Examiner last week reported—"Hides, no improvement."

In The District Court of The District of Macleod

In the matter of the Estate of Albert Yagos, late of the Village of Coleman, in the Province of Alberta, Miner, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named Albert Yagos, who died on the 29th day of March, A. D. 1922, are required to file with Albert Yagos at Coleman, in the Province of Alberta, by the 8th day of July, A. D. 1922, a full statement duly verified of their claims or of any security held by them, and after that date the Administrator will distribute the assets of the deceased amongst the parties entitled thereto, having regard only to the claims to which notice has been so filed or of which have been brought to his knowledge.

DATED at Lethbridge, in the Province of Alberta, this 16th day of May, A. D. 1922.

OSTLUND & BROWN,
Lethbridge, Alberta,
Solicitors for the Administrator.

Exceptional Opportunities Exist In Canada For Engaging In Poultry Raising

Exceptional opportunities exist in Canada today for engaging in the agricultural or commercial activities of poultry raising and egg marketing. In this respect Canada faces a peculiar situation for whilst, at the present time she is exporting eggs to foreign countries at the rate of about six and a half million dozen annually, she is importing for domestic consumption, nearly five and a half million dozen.

It is only of recent years, since Canada has diversified the larger issues of grain growing and livestock raising with lesser, though no less necessary, agricultural pursuits, that poultry raising has been entered into on what might be considered the proportions of an important industry. This interest in poultry raising has been fostered and encouraged in every way by government campaign and propaganda and has resulted in a gratifying increase in the number of poultry and the production of eggs. Whilst Canada has been successfully asserting herself as a serious competitor amongst the dairy countries of the world, she has also been developing in a surprising manner as an egg marketing nation. Though the progress in egg production has been little short of remarkable, the export trade, from popular demand, has increased in like proportion yet she continues to send out practically the same amount as she is under the necessity of importing for her own use.

It is only within the past few years that Canada has managed to obtain a lead, small as it is, in egg exports over imports, due to phenomenal development in the home industry. Since 1909 Canada had the unenviable position of importing each year more eggs than were exported. Total exports in 1911, for instance were 92,164 dozen against imports of 2,378,600 dozen. In 1915 exports amounted to 965,640 dozen only against 4,354,611 dozen. By 1918 the tide had turned and exports were 4,396,952 dozen against 4,274,452 dozen. The favorable trend has continued due to activity in the promotion of the industry at home and in 1921, exports were 6,579,853 dozen against imports of 5,341,611 dozen.

The Bureau of Statistics reports that there were 34,340,474 hens in Canada in 1921 as against 25,942,106 in 1920. During 1921 these hens were responsible for a production of, as near as can be estimated, 161,971,000 dozen eggs as compared with the previous year's production of 121,604,000 dozen.

Poultry farming has long been popular and profitable in Canada especially in the Maritime Provinces and British Columbia, but the increase in recent years has been brought about by the adoption on a greater and wider scale of poultry raising by mixed farmers and those following agricultural pursuits of other nature who have found this branch increasingly profitable and returning quick and steady revenue. In this regard it is significant that Saskatchewan, the first wheat province, is, in proportion to its population, the first poultry province of Canada with 8,000,000 hens, followed closely by Ontario. It is equally significant that Alberta, another prairie province, takes third place and that Manitoba, the third of the trio, is bracketed fourth with Quebec.

The opportunities lying in the poultry industry in Canada are self-evident from a survey of the facts. The export trade is developing to a larger extent each year as the popularity of the Canadian produce increases and the demand is greater. In the decade 1911-1921 export in eggs has grown from 92,164 dozen to 6,579,853 dozen. Despite the tremendous increase in production practically an equal amount has to be imported to fill domestic needs. Room exists for wide expansion in production.

Mineral Production in B.C.
Mineral production in the province of British Columbia in 1921 amounted to \$28,066,541, according to the annual report of the Department of Mines, tabled in the Provincial Legislature by Hon. W. M. Stewart, Minister of Mines. The total tonnage of ore mined in the province during the past year was 1,562,653, having a gross value of \$12,920,398, and with the placer gold a total value of \$13,155,598.

No System There
"There's no job no system expert will ever be able to control."

"What's that?"
"House cleaning. No woman would ever think she was doing the job unless every room in the house were upset at the same time."—Detroit Free Press.

W. N. U. 1421

Railroads Pay Theft Losses

Enormous Sums Required Each Year to Reimburse Public

It was stated the other day in the newspapers that within a period of three years six million dollars' worth of goods had been stolen from the New York Central Railroad. This brings up the question of the enormous losses that are entailed every year from like causes. In a booklet of U.S. railway statistics before me is noted the fact that in the year 1917 the American railways paid out the sum of \$44,000,000 for loss and damage to freight, baggage, property and livestock. In the year 1920 the total losses and damage bill was \$142,000,000. In neither case are injuries to persons taken into account. This is another bill which in 1920 amounted to \$57,000,000.

These figures demonstrate two things, first that the railways are not receiving the faithful and vigilant service of their employees, and secondly, that the public had to pay the freight, so to speak.

While the railway statisticians who compiled this book do not in so many words and figures divide the thefts from other losses, it is none the less plain that thefts formed a very large proportion of the whole. In this connection, Canadian railway managers could, if they would, unfold an equally startling array of figures, and these could be readily backed up by the experience of most any large client of our transportation systems.—From the Toronto Saturday Night.

Enthusiastic About Canada

Sir Julian Orde Says Dominion Has Great Future

"Throughout the whole of my tour through Canada from east to west, I did not discover what I should term a distinctly Canadian automobile."

In these words, Sir Julian Orde, Secretary of the Royal Automobile Club, and a leading authority in Britain on the automobile industry, summed up an important aspect of the journey that has taken him halfway around the world, and from which he has just returned.

Sir Julian is enthusiastic about Canada's paved roads in the vicinity of large cities, which he declared were second to none, but he was very favorably impressed with warlike highways. He returns home convinced in his opinion that if Canada is given the right kind of immigrants, she has a future in store for her such as no country has ever possessed before in its history.

"There are prospects of an era of prosperity in the Dominion far exceeding those of the United States, in my opinion," said Sir Julian. "The great need of the Dominion is men and more men, and so soon as she begins to acquire greater population, she will hold out opportunities to new settlers such as no country can rival. Canada is fully capable of taking care of a very large influx of the right kind of settlers."

New British Plane Has Two Decks

Fighting Bomber Equipped With 1,000 Horsepower Engine

To go "upstairs" in an airplane in flight will be possible in a machine, which has been designed to take the first of the 1,000 horsepower "Club" engines.

This airplane, about to undergo an expert official test at Martlesham Heath, is built so that it has two decks, or floors, one above the other. On the "ground floor" there is all the elaborate release-gearing and instruments for the accurate dropping of large bombs—the machine being, in fact, a fighting bomber with an exceptionally wide radius of action.

On the "first floor" communicating with that below, will be accommodated the pilot and navigator of the machine, who have an admirable view on all sides.

To Restock Lakes

The Marine and Fisheries Department of the Dominion Government, with the co-operation of the Canadian National Railways, through transportation facilities, have made extensive preparations for the restocking of all the principal lakes in the surrounding country adjacent to Port Arthur and Port Arthur with thousands, and in some cases millions of lake trout fry.

The lower story of a house in Kansas City, Kan., is built entirely of discarded telephone and telegraph poles.

The word "admiral" is derived from the Arabic, emir-bahr, meaning "lord of the sea."

Egg Laying Contest

Reported that this year's Saskatchewan Contest is a splendid one. The performance of the 10 pens entered in the Saskatchewan egg laying contest, conducted by the officials at the Indian Head Experimental Farm, up to and including the week ending May 1, shows pen No. 3, entered by the Experimental Farm, leading pen No. 2 by a margin of 34 eggs in 34 weeks. The two pens are white wyandottes and both listed as sick during the last week.

The Experimental Farm pens are entered for record of composition only, and will not compete for prizes. Superintendent MacKenzie and A. M. Pitkey, manager of the contest, report this year's performance a splendid one, with an apparent increased laying ability in the pens entered.

Following is a list of the pens and the owners:

1—J. G. Leithwaite, Rosthern; sick; white wyandottes.

2—Experimental Farm, Indian Head; sick; white wyandottes.

3—Experimental Farm, Indian Head; sick; white wyandottes.

4—Experimental Farm, Indian Head; sick; white wyandottes.

5—Experimental Farm, Indian Head; sick; white wyandottes.

6—A. Finch, Battleford; sick; white wyandottes.

7—W. W. Smith, Battleford; sick; barred rocks.

8—S. W. Exley, Conquest; sick; white wyandottes.

9—O. A. Walters, Grenfell; sick; single comb Rhode Island reds.

10—T. Gibbs, Moose Jaw; sick; single comb, white leghorns.

11—T. Gibbs, Moose Jaw; sick; single comb black leghorns.

12—A. W. Vann, Indian Head; sick; white wyandottes.

13—Mrs. J. J. Dane, Heward; sick; rose-comb Rhode Island reds.

14—R. Morley, Moose Jaw; sick; single comb sacra.

15—S. H. Jones, Blaine Lake; sick; barred rocks.

16—Major M. Shoul, Zelma; sick; barred rocks.

17—E. Barnett, Radisson; sick; white wyandottes.

18—Mrs. Alfred Wilson, Lashburn; barred rocks.

Charles Dickens insisted on his bed being placed north and south, and it is said that he carried a compass in his baggage.

The heart cannot soar high without love. People with little love in their nature are frequently grovelers.

Repentance is much more than being sorry that you sinned.

Conditions Growing Better

World is Recovering Slowly from Effects of War

Conditions in the world are not growing worse. They are growing better. Recovery from the effects of the war is progressing. The evils to be attacked are steadily becoming less important, and the very fact that they are being attacked is a great step toward eradicating them. Political conditions the world over are growing perceptibly saner and sounder. Business is responding with greater activity. Confidence is justifiably increasing. The number of unemployed is diminishing in this country, at least, and probably in all others. Experience is teaching men the solution of their problems and false steps, when made, are producing less serious results than was the case last year and the year before that, and the year before that—Buffalo Express.

Switchman Conceived Idea of Operating Signals From House
Few things are wholly new. Last year is not an admirable trait in any man, but for all that it appears to have been responsible for at least one useful and important invention. In 1846, says Mr. Herbert W. Howrill in *Discovery*, a railway switchman was at a station with two station signals. He used a broken chair as a counterweight and ran the wire on into his hut. Each night after that he sat by his fire and worked the two signals without setting foot outside.

Presently the railway authorities found out what he had done, reprimanded him for his indolence, promoted and rewarded him for his ingenuity and then adopted his invention.—Youth Companion.

New Gold Strike in B.C.

It is reported that a strike of free milling gold, running high in value, has been made on Texada Island in the Gulf of Georgia, British Columbia. The samples submitted for analysis are free milling variety and stringers of gold are plainly visible in the quartz. The vein discovered is 1,500 feet long. A shaft will be sunk immediately and will show the depth of the lode.

American Pays Tribute To The Efficiency Of Britain's Great Police System

Clock Running Since

Sixteenth Century

In Tower of St. Mary's Church in Exeter, England

One does not often see the curious grandfather's clock in these days, and perhaps no one believes the old song: "It stopped short, never to go again when the old man died."

But that there are clocks which have kept time for much more than a lifetime we learn from a writer in *The Country Life*, who says:

If you should visit the city of Exeter, in England, you would see in the tower of the church of St. Mary Steps, a clock that, with now and then a short rest for repairs, has been running ever since the middle of the sixteenth century. The famous Strasbourg clock, part of the works of which date back to 1574, has not been running so long.

In a canopied alcove above the dial of the Exeter clock are three automatic figures. The middle one, which bears a strange likeness to Henry VIII, is in a sitting posture, and when the clock strikes the hour solemnly nods his head at every stroke. At his right and left stand two soldiers who hold a Jewell in one hand and in the other a hammer with which they alternately strike the quarters on a bell at his feet.

The three figures are known as Matthew the miller, and his two sons, for it seems that in Exeter there once lived a miller so remarkable for his punctuality that his neighbors set their timepieces by his going to work and returning.

The Scotch View

An Englishman and a Scotchman were discussing the Darwinian theory and after prolonged argument had got to the point where they were nearly in agreement.

"So," said the Englishman "we are in agreement that we have descended from the monkey?"

The Scot was silent for a moment and then replied:

"Weel, no exactly. Ma opinion is that the English descended, but the Scotch ascended."—Edinburgh Scotsman.

VICTORIA DAY PRIZE WINNERS

Following is a list of prize winners in the horse races at Cowley on the 24th:

Half Mile Open—Phoenix, owned by B. O. Morrow. F. Bossy, rider. Second, Dick, owned by J. Crow. Eagle, rider M. Bear Child.

Boys' Saddle Horse—Stella, owned by M. Percevaux, rider F. Percevaux. Second, Mack, owned by J. Stokes, rider.

Pony Race—Glow Worm, owned by J. Graham, rider. Second, Fox Trot, owned by R. B. Wilson, rider.

One Mile Open—Phoenix, rider F. Bosely. Second, Morning Gray, owned by Ride in the Daytime, rider.

Half Mile, Ladies—Heather, owned by Annie Kemmis, rider; Babe, owned by Mrs. Altermatt, rider. (Dead heat).

Relay Race—First, Moving Bull, second, Rainmaker, (3 horses), J. Hatfield.

Novelty Race—Like, owned by Dennis Foley, rider. Second, Chestnut, owned by J. L. Jones, rider.

One Mile, Indian—Pinto, owned by Joe's Little Girl, rider. Second, Snuff, owned by Philip Big Swan, J. Lizard, rider.

One Mile Saddle Horse—Rainbow, owned by E. Meyers; F. Lee, rider. Second, Glow Worm, J. Graham rider. Matched Race—Won by Mollie, owned by James H. Moore; F. Bosely, rider.

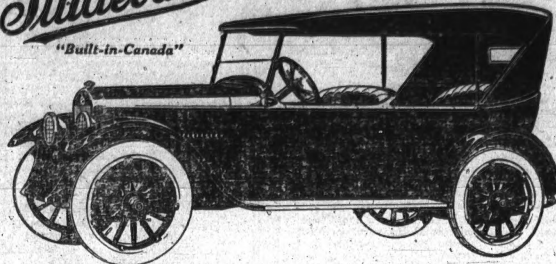

Bucking Contest—First, Buster Connelly, of Lundbreck. Second, Joe Johnson, of Lundbreck.

— HERE COMES THE BRIDE

This is the merry month of June which puts wedding bells in tune, when men see those who soon will boss 'em all camouflaged with orange blossom. O blushing bride, O gentle dear, push back the tresses from your ear. I have some words for you to hear. When all mankind were troglodytes, before the dates that history cites a female person had no rights. The bridegroom's plan for home sweet home was bending saplings on her dome. But times have changed since those beginnings and women long have had their innings. Since Satan made the rolling pin, the human head is all too thin. If Jason calls his soul his own rap gently on his frontal home, but bear in mind the tool is meant to stupefy, not crack or dent. From self assertion you must warn him, but do be careful when you bear him. I wish you luck, I hope you win. I'm very strong for discipline; but yet as oft as once a week, for him some freedom I bespeak, and you should give no wrathful sign providing he is home by nine, nor bounce his head against a rafter for coming just a minute after. So, nobly just, but sternly great, step to the helm and navigate; you are the captain, he the mate. And when he tries to talk back with you he'll soon be nothing but the crew. Nay, more, if he a bit too far may go, he may be classed as simply cargo. —BOB ADAMS.

We understand that in spite of the fact that one of the planks contained in the platform of the recent candidates for school trusteeship, the department of education would not permit an increase of educational poll tax from four to ten dollars. Then in fairness to real supporters of education who are paying at the rate of \$50 per pupil, the department of education should at least require a tuition fee of about that amount. A 500t twenty-five per cent of the children attending the local public schools are supported educationally by a four-dollar poll tax. The balance of the fifty dollarage per child has to be made up from those who have invested their monies in municipal lands, and whom we can thank for the very existence of a municipality and schools. Lots of those who feel that in the four-dollar tax they are supporting education would not believe in education at all if they owned land and had to pay the present levy.

Five-passenger, 40 H. P., 112-inch wheelbase. Cord Tires standard equipment

Thief-proof transmission lock reducing insurance rates 15 to 20% for the Light-Six owner

THE owner of a Light-Six never needs to apologize for his car. It rivals the higher priced cars in all the essentials that cause permanent satisfaction.

The Light-Six L-head 40-horsepower motor with its machined crankshaft and connecting rods is remarkable for its smoothness, quietness of operation and freedom from vibration at all speeds.

It is a good looking, responsive car which is easy to drive and remarkably comfortable. Its deep, soft, genuine leather cushions and semi-elliptic springs, front and rear, assure riding ease. Its cowl ventilator and parking lights add to its serviceability and fine appearance.

Insurance rates are reduced 15 to 20 per cent by the thief-proof transmission lock.

Vast resources, elimination of parts makers' profits and large volume, make possible the production of this unusual car at so reasonable a price—\$1495, f. o. b. Walkerville, Ontario.

And with that you get the benefit of Studebaker's seventy years' experience building quality vehicles.

Peace Between North And South Ireland Is Still Distant

Dublin.—Although Eamon de Valera, in a statement to the press expressed a desire for peace with Ulster, he made it plain that his side still relies on force to resist force from the Orange side; therefore, an accommodation between the north and south would be still far off.

Many northerners who had been appointed delegates to the Sinn Féin convention here were arrested on trains, but several managed to reach Dublin by roundabout ways. Army units have not yet been reached, but though there still are differences regarding ultimate control both sides are said to agree in approving of Richard J. Mulcahy as Minister of Defence. He was one of the authors of the peace agreement which is about to be generally discussed at London.

The four courts building is still occupied by the dissidents but the customary guards have been removed. Mr. de Valera has visited the four courts and is endeavoring to promote fusion between the opposing sections of the army.

Arthur Griffith and Eamon J. Duggan, Ministers of the Anglo-Irish treaty, have left Dublin for London in response to the invitation of Winston Spencer Churchill, Secretary of State for the Colonies, for a conference on the treaty.

Mr. Griffith and Mr. Duggan were accompanied by Minister of Economic Affairs, and Legal Advisor Kennedy.

Mr. O'Higgins told the newspapermen that Collins would go to London later if necessary.

Cardinal Logue, primate of all Ireland, while returning in an automobile from a confirmation service, accompanied by Archbishop O'Donnell, coadjutor to the cardinal, was held up by Ulster specials near Armagh. The car and the baggage of the prelates were searched.

London.—Prime Minister Lloyd George, acknowledging a message from the Welsh National Parliamentary party, said that Great Britain's struggle to solve Europe's urgent problems in a spirit of co-operation and peace was only beginning. He added that the Geneva conference had pointed the way and that he was confident the goal would be reached.

Important Changes In Taxation Announced In Budget Speech

Ottawa.—Not a seat was vacant in the House when Hon. W. B. Fielding arose to present the first budget of the present administration, but his sixteenth as a Minister of Finance. When Mr. Fielding last made a budget statement, 11 years ago, his story was one of a bounding property. Today (as an aftermath of war), it was because of the gravity of the financial situation that he stressed the necessity of making his budget balance. He had reductions to announce in custom's duties, but he had likewise some sweeping increases in taxation. He pleaded for the "deep and earnest need" of economy; he urged that Members of Parliament and the people alike should pass a self-denying ordinance. "I would not, however," Mr. Fielding hastened to add, "have anyone draw the impression that I take a gloomy view of the situation. There is, happily, a brighter side."

For the financial year 1923-24, the Finance Minister summarized the financial situation in this wise:

Estimated revenue, \$332,529,000; estimated expenditure, \$466,953,359.

The following gives the budget in brief:

Tariff reduction combined with increases in special taxes:

British preference increased on many items.

Few reductions on imports from United States.

Acts of last session regarding consular certificates, valuation for duties, and lifting depreciation on foreign exchange to 50 per cent. are all repealed.

Goods Marking Act repealed, but marking made permissive at option of Government.

Sales tax increased by 50 per cent.

Tax of 1 per cent. imposed on bank circulation, in addition to income tax.

Five per cent. tax on premiums paid to unlicensed insurance companies.

Has Faith in Canada

Duke of Devonshire is Complimentary to People of Dominion

London.—The Canadian Club of Great Britain on Empire Day entertained the Duke of Devonshire, ex-Governor-General of Canada, at a luncheon which was attended by a good many Canadians and ex-Canadians now residing or visiting in London. There were present also Ambassador Harvey of the United States; Sir Hamar Greenwood, Secretary for Ireland; Hon. E. Shortt, Home Secretary; and Col. L. C. Amery, Parliamentary Secretary for the House of Admiralty.

Sir George Brown presided in the absence of Hon. P. C. Larkin, who is in Geneva.

Responding to the toast in his honor, the Duke said that even the months that had passed since he resumed his residence in England had not robbed him of the optimism acquired in Canada. It was easy enough to talk about Canada's natural resources but the marvelous development of the country was equally due to the character of the people and its institutions.

Serious Position Of British Aviation

France Will Have 226 Squadrons Against Britain's 12

London.—Major W. T. Blake, of the Royal Air Force, and Captain Norman MacMillan, who on the death of Sir Ross Smith took over the latter's place to fly around the world, were entertained at luncheon in London by the Daily News. Lord Montagu of Beaulieu presiding. It was announced that a private individual was financing the entire expedition. Lord Montagu speaking of the serious position of British aviation said the end of 1922 would find the French with 226 air squadrons compared with Great Britain's 12.

Estimates House Voted \$119,000 for the maintenance of fisheries; \$111,610 for steamboat inspection; \$262,000 for meteorological service; and \$90,000 for the Sorrel shipyard.

To Discuss Waterway Project

U.S. Notices Canada that It Would Like to Open Negotiations

New York.—The United States administration has notified Canada that it wishes to open negotiations for the construction of the St. Lawrence-Great Lakes Ship Canal as soon as possible, a Washington correspondent of the Tribune declares in a despatch. The correspondent says he learned that this request has been transmitted to the Ottawa Government by Sir Auckland Geddes, British ambassador in Washington, at the request of Secretary of State Hughes.

"This is the latest step in the history of this project, so vital to many of the great lakes towns with visions of majestic steamships up their docks," says the Tribune story. "President Harding became convinced some time ago that a treaty would have to be negotiated before any legislation could be passed. This decision was a rude shock to most of the advocates of the project especially those from the States in the northern part of the middle west."

"The Canadian Government, it is learned, here is very much embarrassed at the request just made by this Government at this time. Unofficial information had been allowed to reach Washington some time ago to the effect that while Mackenzie King, present head of the Canadian Government, was personally favorable to the project, he did not wish it brought up at this time."

"The British embassy has been so informed by the Canadian Government and has transmitted the request to the State Department, that no official statement be made by this Government about the request."

Drainage Work in Alberta

Thousands of Acres of Reclaimed Land Put Under Cultivation

Edmonton.—L. C. Charlesworth, irrigation and drainage commissioner for the Provincial Government has returned from an inspection of the Holden drainage system preparatory to taking over from the contractors. The work is practically completed and a good portion of the 13,000 acres of land thus reclaimed is already being put under cultivation.

The Daysland drainage scheme, in which some 15,000 acres will be involved in the process of construction and work will be carried on through the summer, with a likelihood of getting it nearly or wholly completed this year.

Fatal Canoe Accident

Two Men Drown When Canoe Overturns in Rapids

Winnipeg.—Overturning of a canoe containing three members of the forestry service, on Winnipeg River, above Manitoba Rapids, resulted in the drowning of Fred French, a first year student in the forestry school, University of Toronto, and Albert Hale, of Winnipeg, a cook, according to word received here.

Another university student, N. M. Kennis, succeeded in reaching shore after making a valiant effort to save French. He held him until he realized they both would be drawn over the rapids, when he was forced to relinquish his hold. French and Hale were swept over the rapids.

Murder of British Officer

Cairo.—Wilfred Cave, a British officer, Assistant-Commandant of Police here, was shot and killed while returning home from a bicycling trip. Six bullets of different kinds were found in the body of Mr. Cave, proving that there was more than one assassin. No arrests have been made. Cave once belonged to the bodyguard of Viscount Milner, former British Secretary of State for the Colonies.

Musical Festival

Splendor of Massed Choral Singing Subject of Comment

Regina.—Not less than 3,500 people gathered at the Stadium on Wednesday evening and in point of attendance the day may be said to have been a complete success in spite of the holiday rather than because of it. For trains both into Regina and out carried capacity crowds, and though hundreds sought rural refuge from packed streets, hundreds of others came in to attend the festival—a proportion of them to take part.

The evening programme was given over to the final performances of Class A brass bands, choral societies and military bands. This was followed by the performance by the massed choral societies—an aggregation of something like 1,000 singers—of Rachmaninoff's "Cherubim Song" under the baton of Francis Stevenson, conductor of the Orpheus Choral Society of Saskatoon.

Saskatoon carried off the most coveted honors of the 1922 musical festival, when the Orpheus Society won the shield in the choral society contest with 174 points. The Moose Jaw Choral Society, conducted by W. H. Maxwell, came second with 170. The Regina Choral Society, conducted by F. Laubach, was given third place with 163 points; and Prince Albert Choral Society, conducted by Madame J. E. Morier, was fourth, with 160 1/2 points.

The splendor of the massed choral singing can best be imagined from the statement of J. J. Terrier Noble, who has shown no inclination to be over-labial of praise, but who said of this culminating production, "This is a festival chorus most undoubtedly and it is made up of magnificent material."

Post Office Will Issue Licenses

Ottawa.—After June 1, radio receiving licenses will be issued through the post office department of larger cities as well as through the radio branch of the naval service department. Hitherto all licenses were issued through the latter department. An earlier report that the issuing of the licenses will be turned over to the postal department is incorrect. The charge is \$1 annually.

German War Material Destroyed

Berlin.—Up to March 1, Germany had destroyed 8,555,000 rifles and carbines, 104,000 machine guns, 25,700,000 loaded shells and mines, 14,500,000 grenades, 13,383 airplanes and 24,045 airplane engines, according to official figures.

The United States is the world's largest consumer of crude oil.

COMING UP

Lloyd George Proclaims Policy Of Co-operation With French Democracy

Temperance and Morals

Liquor Question Will Be Issue in Quebec Elections

Montreal.—There will certainly be elections. I cannot say just when, I hope they will come soon, but I certainly don't think they will be held either in June or July.

This was the feature of the speech made by Hon. J. L. Perron Provincial Minister of Roads, addressing the members of L'Association de la Parole Libérale here. He added: "Whether the sale of liquor in this province is to continue under Government control or go back to individual vendors as under the old license system, is my opinion, the fundamental question. It is on this question first and foremost that elections will be held in this province."

M. Perron declared that alcohol in North America was a necessity.

"We must have it, for we did not, there would be worse things. The revenue part, after all, is only a secondary matter. It is a question of temperance and morals."

End Occupation in July

Will Soon Withdraw Allied Troops From Upper Silesia

Paris.—The allied military occupation of Upper Silesia is likely to come to an end by the last of July, according to the report of the allied commission for the district which was considered by the council of ambassadors here. Fourteen thousand men of the allied forces are still in Upper Silesia. Of these 11,000 are French, 1,500 British and the remainder Italian.

The Germans and the Poles recently reached an agreement covering readjustments in the district and the commissioner now forecasts a situation which will permit complete withdrawal of the military within 60 days.

Many Soldiers Have Abandoned Farms

Hon. Charles Stewart Says Number Totals Over Two Thousand

Ottawa.—Hon. Charles Stewart, Minister of Immigration, stated in the House of Commons that there have been 2,352 abandonments of farms by soldier settlers.

The total amount of public monies invested in the abandoned farms was \$9,885,638. The amount invested in lands and buildings was \$1,651,297. The return received was \$1,852,334. The amount invested in stock and equipment was \$529,853, and the return received from the sale of this stock and equipment \$376,466.

New Tax on Cheques

Montreal.—The statement of officially made by the stock exchange that the new tax on cheques and stock transfers does not take effect until July 1.

The eating of waterkrait tends to the prolongation of human life, according to some medical scientists.

Fruit Crops Damaged

Victoria.—Frost has damaged fruit crops on Vancouver Island and the Gulf Islands, estimated at from 50 to 50 per cent. of the early bloom, according to the Government report. In some cases the damage was a good deal heavier, the report says.

Railroad Freight Rates In United States Are Reduced Ten Per Cent.

Washington.—Railroad freight rates in the United States will be reduced on July 1 by amounts equal to 10 per cent. of their present levels, under a decision of the inter-state commerce commission.

Practically all classes and commodities of traffic are affected by the decision which marked the conclusion of the investigation begun last autumn by the commission, on its own initiative into the reasonableness of existing freight rates.

The cut in freight rates was fixed by the commission at 14 per cent. in eastern territory; 12 1/2 per cent. in western territory; and 12 1/2 per cent. in the southern and mountain Pacific territories.

The commission, in ordering the decrease—which are on a horizontal basis—held that the nation's railroads are entitled to earn 5 1/2 per cent. on the value of their property rather than the approximate six per cent. fixed as a reasonable return in the Transportation Act of 1921.

Agricultural products in all sections of the country outside of New England, livestock and western grain and grain products are the chief commodities excluded from the reduction, these comprising the freight classifications upon which reductions have been recently put into effect.

Passenger charges and Pullman fares also are unchanged by today's decision.

Though a divergent view within the commission was indicated by several supplemental concurring or dissenting opinions, the full weight of the commission appeared to be thrown behind the statement made in majority and concurring opinion that a general reduction in the rate level is substantial as the conditions of the carriers will permit will tend to stabilize the conditions under which commerce and industry are carried on, consequent fuller assurance to carriers of realizing a fair return.

The great reductions in freight rates are expected to have an important bearing on importations from Canada and elsewhere. The lowering of freight rates is expected to result in some extent increase imports from Canada which have had to encounter not only tariff duties but such high freight charges as to greatly restrict markets.

—HE KNOWS HOW—

Coleman Happenings

Mr. Harry Gates is nursing a throat full of tonsillitis.

Boat houses and boats at Crows' Nest Lake are being got in readiness for the season's pleasure.

Mrs. Robert Carson, of Dayland, is visiting with her parents, Mr. and Mrs. George Powell.

Miss M. Murray, of the public school staff, is back at work again, after a short illness.

Mr. Frank Cosgriff, of Kimberley, B. C., is spending a few days in town with old friends.

Miss Nesbitt and Mrs. T. P. Shields spent the week end in Calgary.

The work of grading Main Street is nearing completion, and will be quite an improvement.

Mrs. George Powell was confined to bed last week, but we are glad to report her recovery this week.

Mr. L. Lindoe has been in Calgary, having an operation performed on his throat, but has re-

turned and is almost back to normal health again.

Miss Mary MacKay, who was nursing Mr. Lamey of Bellevue for the last three weeks, has returned home.

Mr. Morrison and Mr. H. McLeod made a business trip to Calgary last week. Mr. Morrison brought home a new McLaughlin car with him.

Mrs. Haines, matron of the hospital, put the C. G. I. T. girls through an examination on home nursing. She had delivered a series of lectures during the winter on this subject. Miss Edith Haysum came first and all the girls made a splendid showing. Mrs. Haines kindly donated splendid prizes for the competition.

The golf tournament held at the local links on Wednesday (Victoria Day) was a great success. The weather was ideal. The first prize in the men's competition was won by Mr. J. Woods. Mr. Geo. Powell and Mr. Chapman tied for second place. The ladies served a dainty luncheon of tea and sandwiches at noon, before the men started on their second round.

Local and General Items

For funeral flowers phone 212, Crows' Nest Pass Undertaking Co.

Mr. Todd, of Fernie, is a business visitor here this week.

The W. H. Hilton property at Frank has been purchased by Mrs. McLean.

Quite a number of forest fires have been reported in British Columbia.

Mrs. T. S. Dawson and children returned this week from a couple of weeks' visit to Calgary.

Emperor Pick paid a business visit to Calgary the early part of the week.

Mrs. J. J. Purvis is visiting her daughter, Mrs. P. Bamber, at Lethbridge for a few days.

Mrs. L. H. Putnam left here for Vancouver last week, to attend the Dominion convention of the I. O. D. E.

One consolation the homely girl will have is that she will be a pretty old one if she should live long enough.

Mrs. James Paden was a visitor from Todd Creek for a few days last week, returning home on Monday's local.

Canon Doyle says that "spirits can come back." Does he mean to insinuate that John Barleycorn is to be resurrected?

An advertisement tells of a new way of painting without oil. Nothing new in that; girls have been doing it for a long time!

Pretty soon the season will arrive when the finest, biggest fish, Will begin to slip off the hook and make a safe getaway.

A cross of large proportions has been erected in the centre of the Catholic cemetery. The cemetery grounds have been cleaned up and the fences repaired.

It was a saying of a great man that "If we could trace our descendants we should find all slaves to come from princes and all princes to come from slaves."

At the semi-annual election of officers of Blairmore Lodge 68, I. O. O. F., on Tuesday night, W. T. Patterson was elected N. G.; D. A. Howe secretary, and William Oliver, vice grand.

Rev. and Mrs. Harry Peters and Mr. and Mrs. John Shevels left Bellevue by motor on Monday for Edmonton, where they will attend the Methodist conference. Mr. Shevels attends as a lay delegate for Bellevue mission.

A flapper's skirt has just been invented, which has a pocket behind the front in which may be carried a 56-lb weight to assist that part of the anatomy to swing gracefully in a public place.

Miss B. Mitchell, who has taken the agency for the Standard Garment Co., and the Glasgow Rubber Co., is staying at the home of Mrs. J. Milne for a few days, before going into B. C. Anyone wishing to see samples may call or phone Mrs. Milne.

The poor editor was waited upon by a bunch of sympathetic lady friends last week end and presented with much needed apparatus, such as socks, garters, neckties and handkerchiefs. It's not often that an editor gets the attention he really deserves.

A Rush wedding took place at Coleman last night, when a young gentleman of anywhere became responsible for the balance of life here on earth of a young lady of Frank. The preacher and but a few sympathizing friends were in attendance. After a honeymoon trip to Blairmore via shank's mare, the young couple took up residence in two rooms—one at Blairmore and one at Frank—this being their first separation allowance. General sympathy is expressed.

In a real deal someone is sure to be well done.

A friend that you can buy can be bought from you.

Miss Cecile Marquis has been laid off her duties as teacher for a few days, suffering from tonsillitis.

A dance will be given in Tustian's hall at Cowley on the night of Wednesday, June the 14th.

The White Spruce baseball team will visit Blairmore on Wednesday evening next.

Nath. Marshall, boiler inspector, spent the week in the Pass, returning to Lethbridge today.

Someone remarks that the tax being imposed on cats at High River is a sin tax.

Mrs. A. E. McPhail is spending a few weeks with friends in Calgary.

Mr. Percy Bamber returned to Lethbridge on Friday last, after a week spent with his parents here.

Rev. and Mrs. Newman, of Hillcrest, are attending the Methodist conference at Edmonton this week.

Now that turtle-shell spectacles can be had for only two dollars, getting cultured and aristocratic is quite within one's reach.

A large addition is being built to the Corner Association building on Seventh Avenue. The new addition will be of brick construction.

Joseph Hicks, of Macleod, has at last decided definitely to open a legal office at Coleman. Mr. Hicks has had over twenty years in the law profession and is well known in Southern Alberta.

S. J. Sargent left here Monday night for England, via the States. Mr. Sargent will stop at several important cities enroute, including Detroit and will be absent about five months.

Crows' Nest now hosts of a baseball team, which challenges all-comers. Comd. Macauley, of the C. P. R., is chief coachman and umpire. With him all balls are one (or won).

J. G. Bosserman, former professor of music in Edmonton and now homesteader at Rocky Rapids, shot and killed Lewis Davies, a Welshman and returned soldier, only in Canada six weeks, during a quarrel on Saturday night over possession of a suitcase and broad axe. Davies died instantly.
